

ELLAND COURT

CARE HOME

Kindness lives here

Fisher Care

EST. 1986

A photograph of a modern, three-story care home building. The building features a mix of light-colored stucco and stone-textured walls. Large windows are visible on all floors, some with white frames and others with dark frames. The entrance on the right is highlighted by a dark awning with the name 'Elland Court Care Home' in gold lettering. The entrance has large glass doors and is flanked by potted plants and hanging flower baskets. The foreground shows a paved courtyard area with a wooden bench and various flowering plants, including pink and white hydrangeas and purple lavender. The sky is blue with scattered white clouds.

A Beautiful Care Home

OFFERING EXCEPTIONAL CARE
THAT'S PERSONALISED,
COMPASSIONATE AND KIND.

Elland Court Care Home

Dear Family

Choosing the right care home is one of the most important decisions you'll ever make, whether it's for yourself or for someone you love.

You're looking for somewhere safe, of course. But you're also looking for warmth, dignity, and the reassurance that comes from knowing your loved one will be treated as an individual, not just another resident. You want to know they'll be comfortable, engaged, and genuinely cared for by people who see them as a person, not a list of needs.

That's exactly what we've created at Elland Court.

Opening in Leeds in late summer 2026, Elland Court is our newest care home, a modern home where luxury and genuine kindness sit comfortably together. Every detail has been designed with your peace of mind in view: advanced care technology that supports independence, and all-inclusive pricing so there are never any unexpected costs or hidden extras.

This year marks 40 years since my family started Fisher Care Group with a simple commitment: to care for people the way we'd want our own family cared for. Elland Court is the newest expression of that promise, combining everything we've learned over four decades with a setting and standard of care we're genuinely proud of.

Under the expert guidance of Debbie Daniels – a registered nurse whose 20-plus years in care bring both real skill and genuine warmth – our team delivers residential, nursing and dementia care that's truly personalised. Because while beautiful surroundings matter, it's the people who make a place feel like home.

We'd love to show you around, introduce you to Debbie and the team, and give you the chance to see whether Elland Court might be the right choice for you.

Warm regards,

Josh Fisher
Managing Director
Fisher Care Group

Home is where the heart is

At Elland Court, residents enjoy life that balances comfort with purpose, independence with support, and privacy with connection. It's care that feels less like care and more like living well, exactly as it should be.

This brand new, luxury care home provides residential, nursing and dementia care for up to 75 residents. Our approach combines exceptional facilities and skilled clinical teams with personal attention that ensures everyone is known, valued, and cared for as an individual.

OUR HOME

Step inside and you'll immediately notice the difference. This isn't an ordinary care home, it's a beautifully designed environment that feels like a luxury retreat with the warmth and welcome of home.

Light-filled lounges and a stunning rooftop terrace create elegant, comfortable spaces, and every detail has been considered with resident and staff wellbeing in mind.

Set in a quiet residential area just one mile from Leeds city centre, Elland Court combines peaceful surroundings with excellent transport links – making it easy for family and friends to visit.

ACCOMMODATION

Every bedroom at Elland Court has been designed with comfort, dignity, and wellbeing in mind.

Our spacious rooms all feature en-suite facilities and are furnished to hotel standards. We encourage residents to personalise their space with treasured belongings, photographs, and furniture from home, those meaningful touches that transform a room into somewhere truly personal.

Each room benefits from carefully considered lighting, ample storage, and thoughtful design that supports both independence and dignity. For residents with dementia, we've incorporated evidence-based design principles that help with orientation and create reassuring, calm environments.

Set across three floors, Elland Court also offers generous communal spaces including a café bar, comfortable lounges, quiet alcoves, a TV lounge, a hair salon and nail bar, spa bathrooms, and a stunning rooftop terrace. We've created a home that offers both social and private spaces, depending on what residents need at any given moment.

RESIDENTIAL CARE

For those who need support with daily living while maintaining their independence and dignity. We assist with personal care, medication management, and daily routines, always respecting choice and privacy.

NURSING CARE

Our nursing provision pairs qualified clinical staff with genuine compassion. With registered nurses on hand around the clock, residents with more complex health needs receive skilled, attentive support, working in close partnership with doctors and specialists.

RESPIRE CARE

Sometimes families need a break from the pressures of day-to-day life that go along with caring for a loved one. Whether for a week or longer, we provide short-term care that gives everyone renewed energy. Your loved one receives the same attentive, personalised care as our permanent residents, in the same exceptional environment.

DEMENTIA CARE

At Elland Court our dementia care is delivered with compassion, expertise, and a deep commitment to quality of life. We are proud to have appointed a dedicated Dementia Ambassador who leads best practice across the home, ensuring every resident living with dementia is supported with dignity, respect, and individuality. Our approach is guided by the prestigious University of Stirling Dementia Framework, which shapes our training, care planning, and environment to create a truly person-centred experience. Residents are actively involved in decision-making about their care, daily routines, and activities, with their wishes and preferences placed at the heart of everything we do. Through this evidence-based framework, we focus on understanding each resident's unique life story, preferences, and abilities, helping them to live well with dementia in a safe, stimulating, and emotionally supportive home.

TWENTY-FOUR HOUR SUPPORT

Care needs don't follow a schedule. Our trained staff are here around the clock for assistance, reassurance, or simply a listening ear when it's needed most.

We work with local GPs, nurses, and healthcare professionals, using regular reviews to stay ahead of changing needs while ensuring people can access specialist services quickly.

Technology that Cares

Call or email **0113 547 6500** / info@fishercaregroup.co.uk

SILVER SHIELD: CARE THROUGH INNOVATION

At Elland Court, we've invested in Silver Shield assistive monitoring technology in every single bedroom, because your loved one deserves the most advanced care available.

HOW SILVER SHIELD WORKS

This intelligent system monitors resident movement patterns and vital signs continuously, without cameras or wearables. It's discreet, dignified, and extraordinarily effective.

WHAT SILVER SHIELD DOES

The technology detects early respiratory changes that might indicate infection or deterioration before symptoms become obvious. It monitors sleep patterns and restlessness, helping staff respond to discomfort or distress quickly. It identifies fall risks by tracking movement and balance changes, allowing our team to intervene before accidents happen. Most importantly, it provides reassurance, both to residents who know help is always aware, and to families who can rest easier knowing their loved one is continuously supported.

TECHNOLOGY WITH HEART

Silver Shield doesn't replace human care, it enhances it. Our staff use these insights to provide more responsive, personalised support. They can spot subtle changes that might be missed otherwise, and respond proactively rather than reactively.

This is technology in service of compassion. It's about using innovation to do what we've always done, care deeply and attentively, but doing it better.

Food Glorious Food

Good food matters. At Elland Court, mealtimes mean pleasure, comfort, and the chance to connect over something delicious.

Our catering team works hard to create appealing, seasonal menus and they take time to learn about residents' individual preferences, favourite dishes, and the meals that have meaning for them. Whether it's dietary requirements, cultural needs, or texture-modified diets for those with swallowing difficulties, we cater to all requirements without compromising on flavour or presentation.

Our dining room offers a welcoming space where residents can enjoy meals together, but we're equally happy to serve breakfast in bed, accommodate different mealtimes, or provide meals in quieter spaces for those who prefer it. Flexibility is key.

For residents living with dementia, we're experienced in adapting meals to support independence, whether that's using specialist crockery, modifying textures, or creating environments that make mealtimes less confusing and more enjoyable.

Between main meals, there's always something available, fresh fruit, baked treats, proper coffee, or a cold drink. Because at Elland Court, hospitality isn't something we schedule. It's simply how we are.

Activities & Wellbeing

Living well means staying engaged, connected, and purposeful, which is why our activities programme at Elland Court is both varied and meaningful.

We don't believe in generic activities that might work for "older people" in general. Instead, we get to know each resident's interests, abilities, and preferences, creating opportunities that reflect who they are. For some, that might mean joining group activities like quizzes, film screenings, or visiting entertainers. For others, it's one-to-one time pursuing a hobby, quiet conversation, or simply enjoying the garden.

Our location in Leeds offers unique opportunities for connection with the wider community, from excursions to the nearby Temple Newsam historic estate to partnerships with local schools, community groups, and organisations, ensuring residents remain part of the city's life rather than separate from it.

For residents living with dementia, we use evidence-based approaches that tap into preserved abilities and long-term memories, activities that provide stimulation without overwhelm. Music, reminiscence, sensory activities, and gentle movement all play a part in supporting wellbeing.

But perhaps most importantly, we recognise that meaningful activity doesn't always look busy from the outside. Time spent in peaceful reflection, watching the world go by, or enjoying simple pleasures is just as valuable as structured programmes. Our role is to enable both.

Our People and Our Values

Fisher Care Group has been family-owned and operated since 1986, and that family approach runs through everything we do at Elland Court.

Our values, safety, kindness, compassion, happiness, and warmth, aren't aspirational statements. They're the principles we recruit for, train for, and hold ourselves accountable to every single day. We hire people who genuinely care, who treat residents as they would their own family members, and who understand that small acts of thoughtfulness make an enormous difference to quality of life.

Home Manager Debbie Daniels, a registered nurse, brings over 20 years of care experience to Elland Court, along with a leadership style that puts both residents and staff at the heart of everything. Debbie understands that excellent care comes from supported, valued staff who feel empowered to use their judgment and go the extra mile.

We invest in our teams through comprehensive training, ongoing professional development, and the kind of supportive culture that means people don't just work here, they want to stay. Staff retention matters because consistent faces and relationships matter. When the same team members care for you day after day, they notice the subtle changes, remember the details, and build the trust that makes care feel truly personal.

The Fisher Care Promise

We promise exceptional care, fostering a warm and welcoming community where individuals are safe and happy, cared for with kindness and compassion.

This is our commitment to every resident and their family.

A Few Final Words

Choosing care is never simple. At Elland Court, we understand the weight of that decision, which is why we want you to feel completely confident before making any commitment. Visit us, ask questions, meet Debbie and the team, and get a genuine sense of whether this feels right.

We're opening in late summer 2026 with the same principles that have guided Fisher Care Group for four decades: kindness, compassion, and genuine respect for every individual in our care.

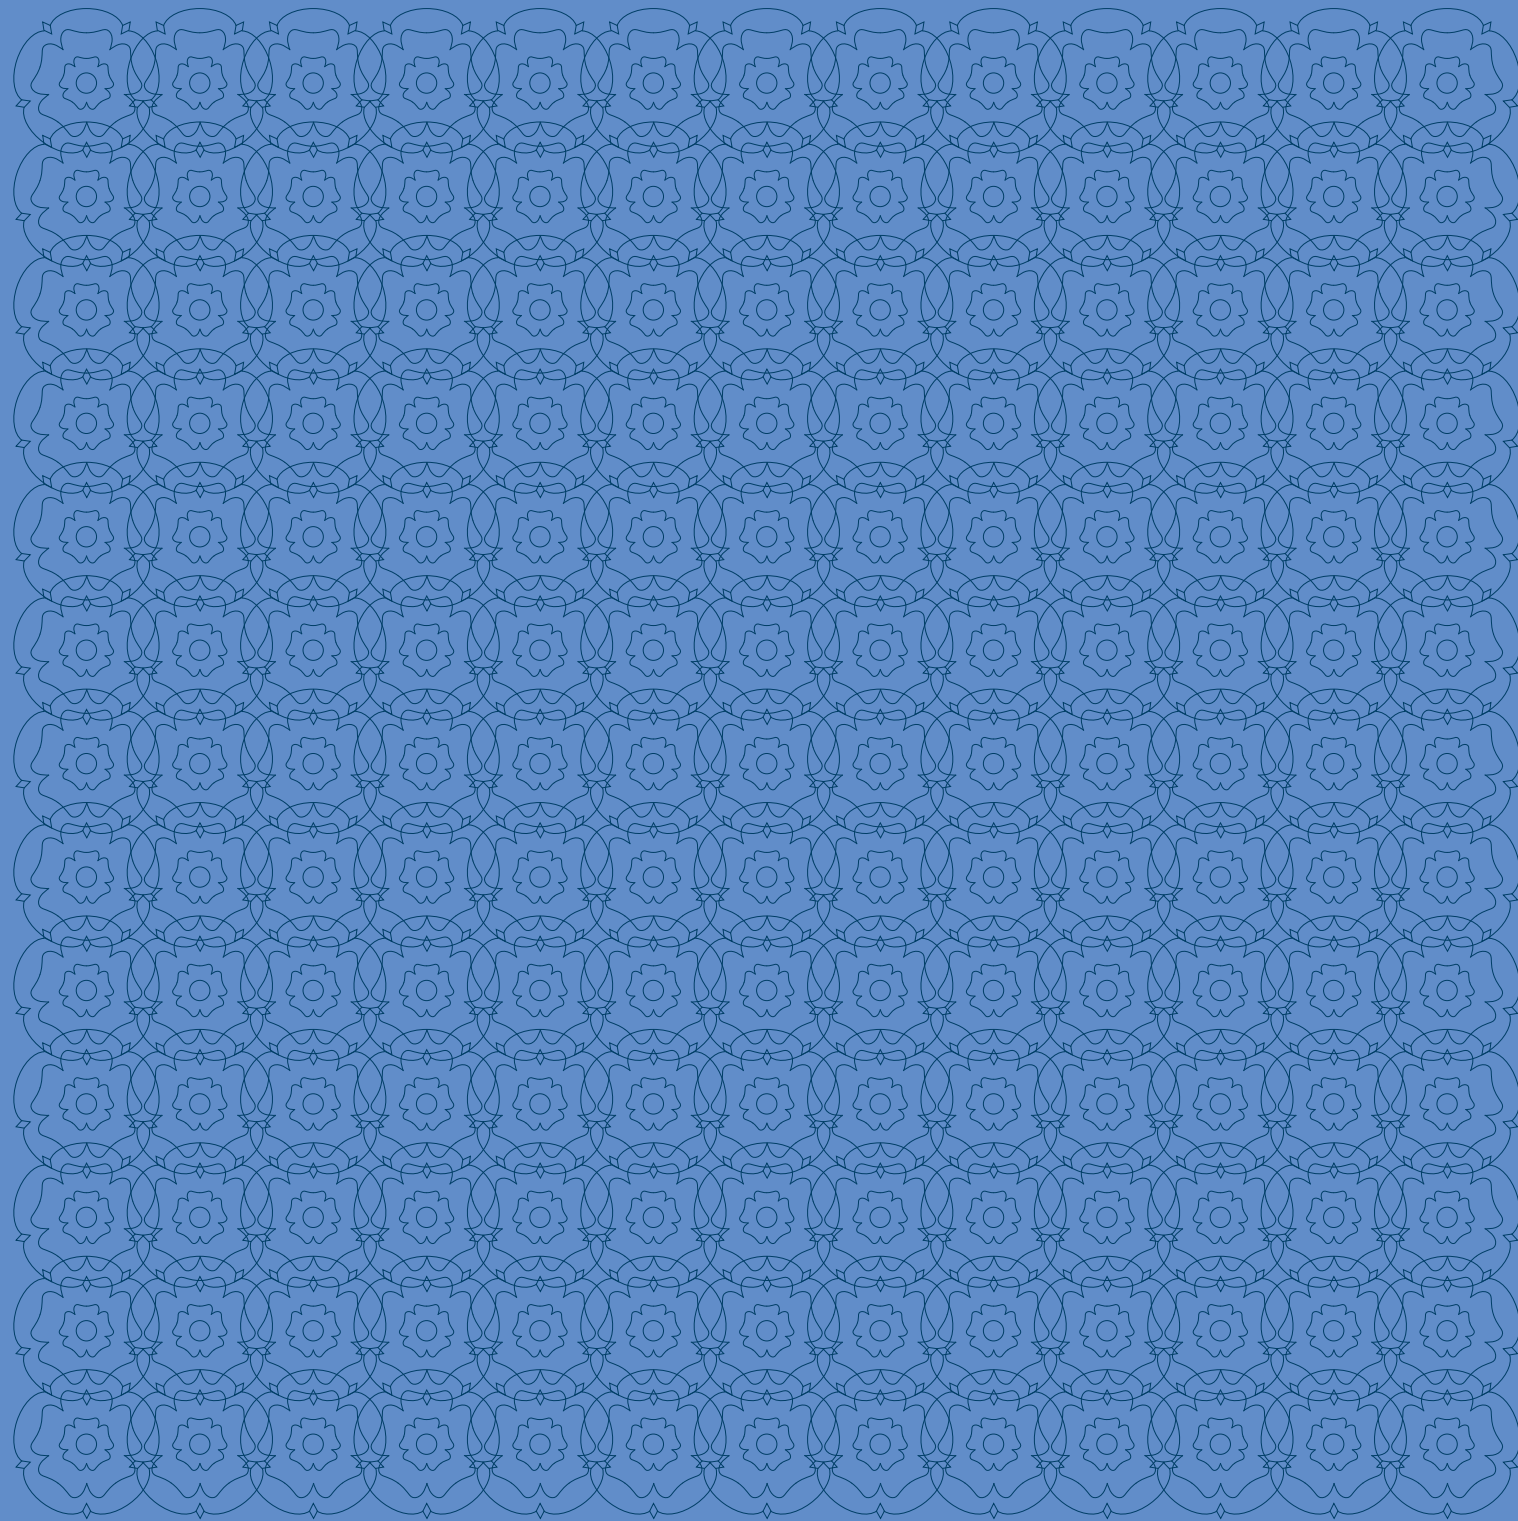

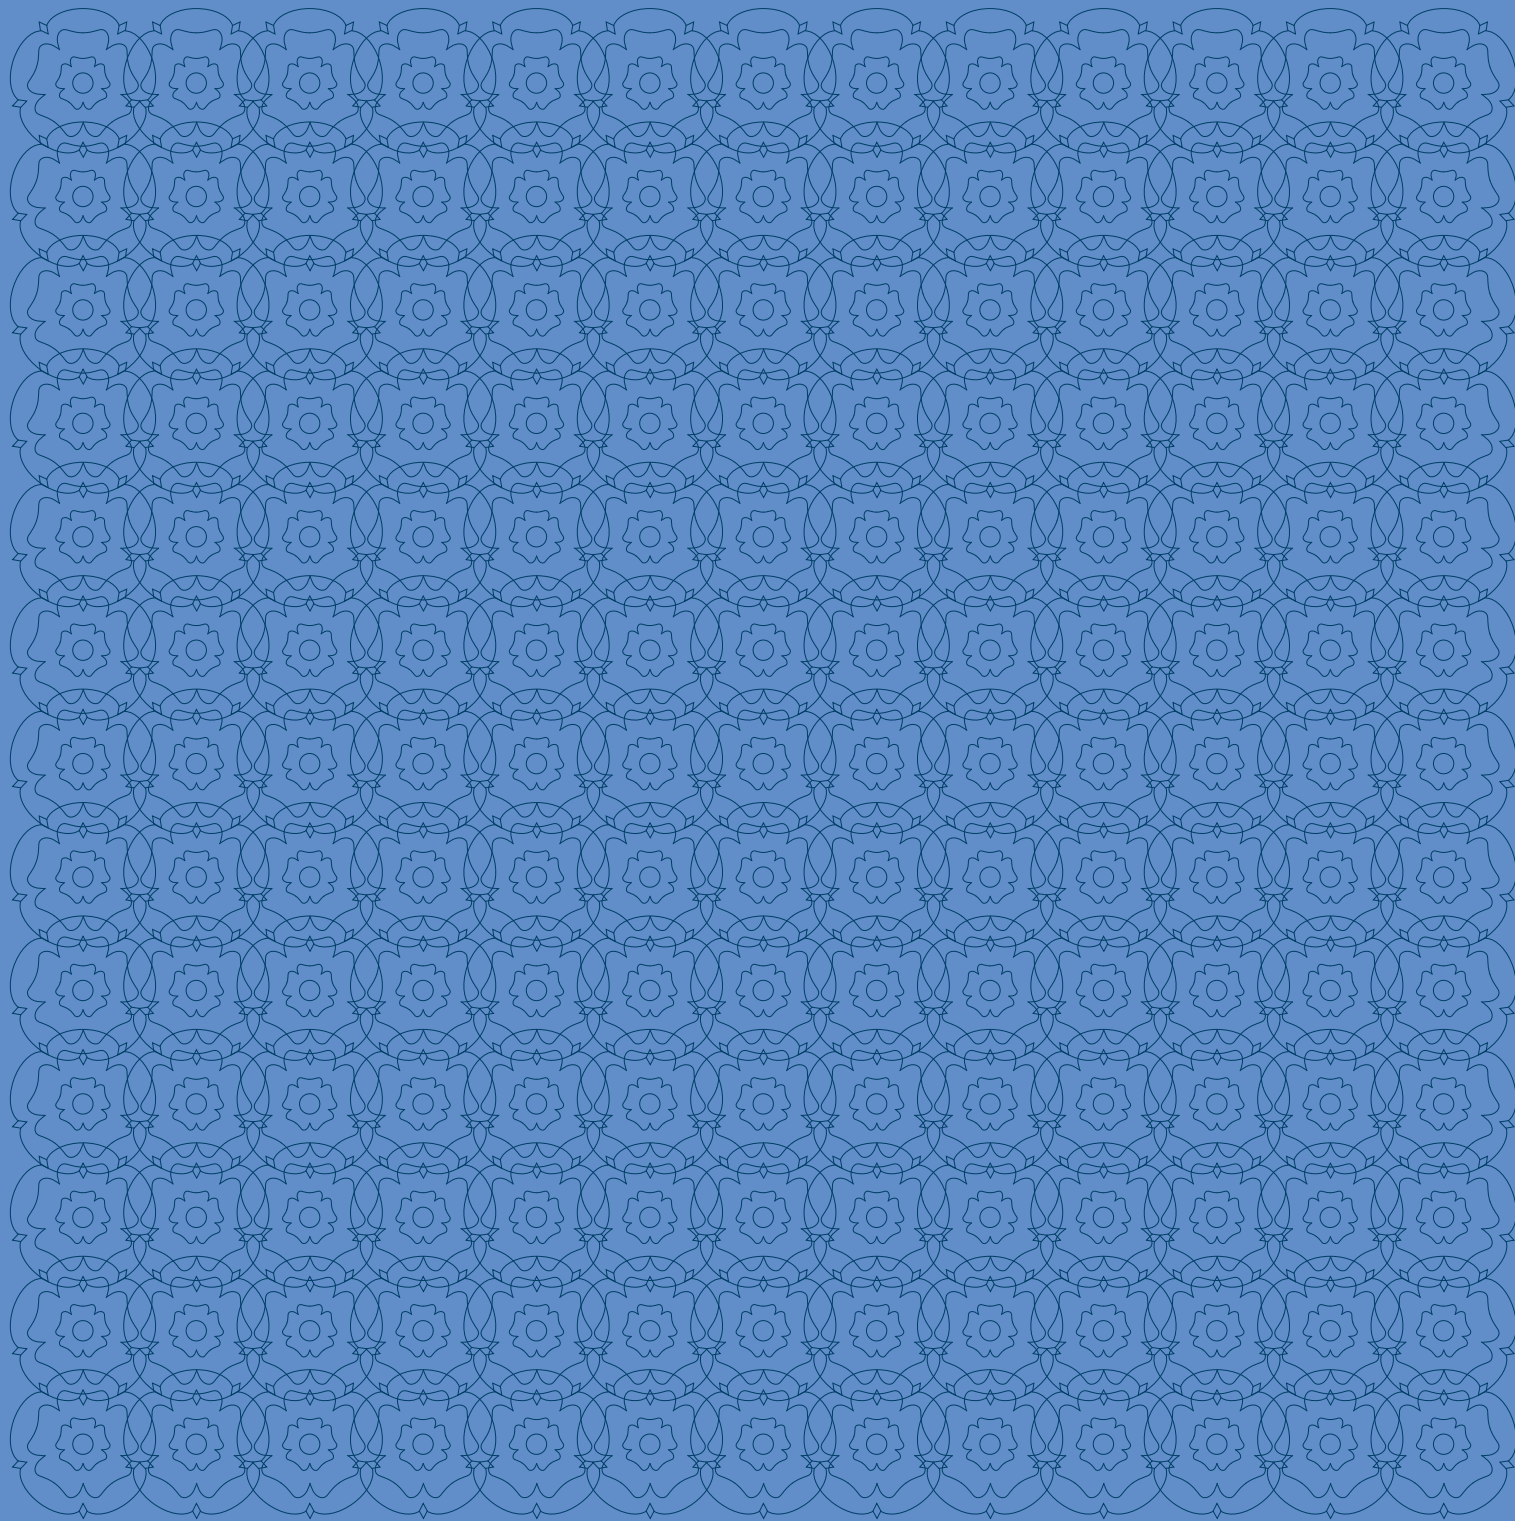

Elland Court represents our vision of what modern care should be, comfortable, dignified, and delivered by people who genuinely care. We invite you to discover whether it could become home.

For more information, to arrange a visit, or simply to have a conversation with no obligation, please get in touch. We'd be delighted to meet you.
